

I resent Sinclair Broadcastings abuse of the public  
airwaves in respect to the showing of a biased  
political anti Kerry documentary just days before the  
election;  
Without equal time for an opposing view.  
Without any choice given to the subscriber stations  
who are told to show the movie in prime time  
without commercials.

This is a nasty episode in the abuse of American  
democracy. The F.E.C. should not be a passive  
bystander in this most critical of times in our nations  
history.

Thank you.

Niall McGinnis
